HELPFUL HINTS: READ THE DIRECTIONS BEFORE ASSEMBLY

THIS SPREADER COMES PARTIALLY ASSEMBLED, REQUIRING YOU TO INSTALL THE CONTROL ROD AND WILL REQUIRE 1 PAIR OF PLIERS.

- ☑ Your spreader is designed to be pushed at three miles per hour, which is a brisk walking speed. Slower or faster speeds will change the spread patterns.
- ☑ Prior to your first use, coat all metal parts (inside and outside tubing) with WD-40 or other spray lube to help prevent corrosion.
- ☑ Clean your spreader thoroughly after each use. *Wash with clean water and dry thoroughly and spray a light coating of oil on all metal parts (inside all of the tubing) to help prevent corrosion.*
- ☑ Gears are permanently lubricated at the factory. Do not open the gearbox or dirt may enter.
